

EDGE Systems (Financial) Customer Requirements

- **Hardware Requirements**

Please note that the time required to process your documents is dependent upon the capabilities of the machine where EDGE will be installed. The following are Minimum PC Workstation requirements for operation of the EDGE System:

- | | |
|--------------------------------|--|
| ○ Machine | Intel Compatible 1Ghz or Faster |
| ○ RAM | 256MB |
| ○ Hard Disk | 50MB (Programs and Supporting Files.) |
| ○ ROM Drive (CD or DVD) | 4X or Greater |
| ○ Video | VGA 800X600 16Bit |
| ○ USB Port | for backup, signatures and control security |
| ○ Operating System | Windows 2000 or XP |
| ○ Internet Access | For Support and Updates |

The following are the recommended Laser Printer Specifications for use with an EDGE System:

- | | |
|-------------------|---|
| ○ Printers | PCL Based Laser printers equivalent to HP LaserJet series LJ-4250 or Greater |
| ○ RAM | 48 MB - Minimum |

* **Note: Nonsupported printers are subject to preinstallation testing.**

- **Test Data**

Please provide test data (preferably from actual print jobs) for each of the documents you will be producing (Accounts Payable Checks, Payroll Checks, Direct Deposit Advices, Purchase Orders, Invoices, etc.). Include whenever possible – credit items, maximum data elements and minimum data elements. The file(s) should be created in the same manner that it/they will be created in a production environment. In order to meet your deadline requirements, EDGE must be provided with this information as soon as possible. If you need help with this or require additional instructions, please call 877-334-3362 and ask for technical support.

- **A Voided Check For Each Bank Account That Will Be Used**

These are actual checks. EDSLCC will use these to set up bank files for testing and to determine the actual form structure.

- **Signature Specification Sheets; Completely Filled Out**

Signature Specification sheets and instructions can be found in the Customer Care Center area of the www.edgedocllc.com web site.

- **Camera Ready Logos**

If you wish to use a logo with the EDGE system, please submit either a camera ready piece of artwork, or a standard image (.jpg, .gif, etc). Please try to submit a logo with a white background. Letterhead often meets this requirement. Keep in mind that the quality of the logo on your documents will only be as good as the image that was used to generate it.

- **Design Of The New Check/Document If Different From Existing Layout**

This should include the document stock definition. i.e., 8 ½ x 11, or 8 ½ x 14, cut-sheet, pressure seal. Provide as much information as possible so that inquiries from the Technicians are minimized.
